PROFESSIONAL PROFILE

BCA student at Parul University building practical skills in cybersecurity, Linux systems, networking, and web development. Hands-on practice includes Linux file permissions and access control concepts, C programming, frontend projects, and Git/GitHub workflows. Brings professional experience in back-office data operations, Excel records, order booking, and pro forma invoice handling. Seeking an internship in cybersecurity, SOC support, or IT support.

TECHNICAL SKILLS

- **Systems & Security:** Linux fundamentals, command-line workflows, file permissions (chmod), user/access-control concepts, cybersecurity fundamentals
- **Networking:** Networking basics, introductory networking practice labs
- **Programming & Web:** C, JavaScript, HTML5, CSS3, responsive frontend development
- **Tools & Data:** Git, GitHub, VS Code, Linux terminal, MS Excel, MS Office, MySQL basics
- **Professional:** Data accuracy, document handling, communication, problem-solving, teamwork, adaptability

EDUCATION

Bachelor of Computer Applications (BCA) | Parul University, Vadodara | 2025 - Present

Relevant coursework: C Programming, Operating Systems, Computer Networks, Database Fundamentals, Web Technologies

PROJECTS & PRACTICAL WORK

- **Linux Permissions & Access Control Lab:** Practiced chmod, Linux file permissions, user roles, and access-control fundamentals.
- **Cybersecurity Portfolio Website:** Built a cybersecurity-focused portfolio using Next.js and TypeScript to showcase projects and technical skills.
- **C Programming Practice Suite:** Created small programs using calculator logic, arrays, loops, pattern output, and file handling.

WORK EXPERIENCE

Back Office & Data Operations Assistant | Dutch Glass, Surat | Oct 2025 - Present

- Maintain Excel-based records for order booking and operational workflow tracking.
- Handle pro forma invoices and supporting business documentation.
- Support accurate data entry and organized document handling for daily operations.

TRAINING & CONTINUOUS LEARNING

- Introduction to Generative AI; Linux and cybersecurity fundamentals; Git and GitHub learning projects.
- Self-directed practice in networking and ethical hacking basics; studying computer fundamentals and SOC concepts through TryHackMe learning modules.
